SUMMARY

Data Analyst with experience in cybersecurity and retail analytics, translating complex data into actionable business insights. Skilled in SQL, Python, Excel, and Power BI, with a focus on dashboards, automation, and stakeholder-driven analysis. Currently supporting data-driven decision-making in cybersecurity at Siemens Energy.

EXPERIENCE

Data Analyst (Cybersecurity) **Mar 2024 – Present**
Siemens Energy (Working Student), Erlangen, Germany

- Modeled vendor pricing (Tenable OT) in Excel across regions, volumes, and discount tiers, resolving data gaps to support multi-million euro investment decisions
- Built Power BI dashboards from stakeholder surveys and interviews (~50 stakeholders), synthesizing requirements to guide cybersecurity project planning
- Developed Excel-based project tracking with automated Gantt charts and status indicators for fiscal reporting
- Analyzed cybersecurity portfolio data (SharePoint) to standardize tracking and improve reporting consistency

Data Scientist & Analytics Consultant **Feb 2022 - Feb 2023**
DemandTex, Istanbul, Turkey

- Built and optimized forecasting and clearance models in Python, increasing revenue by 18% for a multinational retail client (Madame Coco)
- Processed 1M+ rows of retail data in Excel to support forecasting, pricing, and business reporting
- Configured RELEX forecasting modules, improving forecast accuracy by 25%
- Defined KPIs from operational and sales data to support pricing and inventory decisions

Data & Research Assistant **Feb 2019 – Dec 2022**
Various Projects, USA & Remote

- Cleaned, transformed, and analyzed 10+ datasets using Excel and Python for research and reporting
- Wrote 5 articles on cloud and data topics, translating technical concepts for non-technical audiences
- Analyzed datasets (10k+ rows) and 20+ policy documents to support research for a US congressional office
- Performed health data analysis and preparation using R and Excel for research at Val d'Hebron Hospital

EDUCATION

MA Development Economics **Oct 2023 – Present**
FAU Erlangen-Nürnberg, Germany
Relevant Coursework: Data analysis, Econometrics, Statistics

MSc Data Engineering **Aug 2019 - Mar 2021**
Marmara University, Turkey
Relevant Coursework: Machine learning, Natural Language Processing (NLP), Data Engineering, Statistics

BA International Relations (Minor: Economics) **Aug 2015 – Feb 2019**
Marmara University, Turkey
Exchange: *Beloit College, USA* **Feb 2018 – Feb 2019**
High Honors, Dean's List
Relevant Coursework: Data Mining, Econometrics, Applied Economics, Statistical Analysis

SKILLS

Programming: Python (Pandas, NumPy, Matplotlib, SciPy, scikit-learn, PyTorch), SQL, Excel VBA
Databases & Systems: PostgreSQL, MySQL, RELEX (retail supply chain software)
BI & Data Visualization: Power BI, Tableau

LANGUAGES

English (C2), German (A2), Urdu (Native)

CERTIFICATES

Certified in Cybersecurity (CC) - *(ISC)²*
Master SQL for Data Science - *Udemy*
Natural Language Processing - *Stanford University*
