Birthdate 12 April 1993
Work Authorization Student Visa; eligible for EU Blue Card upon graduation (Expected Sept 2026).

SUMMARY

Quantitative Data & Business Analyst with 5+ years of experience in supply chain, cybersecurity, and policy. Specialized in translating high-volume raw datasets (1M+ rows) into automated forecasting models and executive decision-support dashboards.

PROFESSIONAL EXPERIENCE

SIEMENS ENERGY | Erlangen, Germany

Data Analytics & Cybersecurity (Werkstudent) | March 2024 - Present

- **Requirements Engineering:** Executed technical stakeholder interviews to translate business needs into structured datasets regarding topics such as Security Information Event Monitoring (SIEM), Public Key Infrastructures (PKI), and Post-Quantum Cryptography.
- **Data Governance:** Supported the data consolidation of the diverse cybersecurity portfolios across all business areas, establishing a "Single Source of Truth" to enable innovation initiatives and cross functional collaborations.
- **Operational Workflow Automation:** Designing and implementing project tracking systems and reporting logics in Excel, transforming fragmented history into transparent real-time dashboards that enhanced project visibility for management.
- **Cybersecurity Data Visualization:** Structuring and transforming cybersecurity scan outputs using Excel and Power Query, extracting SSL/TLS versions, SSH key exchange algorithms, and Post-Quantum Cryptography indicators into interactive dashboards.
- **Financial Modelling:** Evaluating vendor pricing regarding cybersecurity solutions for Intrusion Detection, Remote Access, and Breach Attack Simulation, supporting investment decisions and budgetary planning.

DEMANDTEX | Istanbul, Turkey

Data Analyst & Consultant | February 2022 – September 2023

- **Architecture & Scale:** Headed data architecture for supply chain optimization for 100+ stores globally; manipulated 1,000,000+ record datasets to isolate and resolve logistics bottlenecks.
- **Predictive Operations:** Improved replenishment accuracy through Python-based (Pandas) forecasting and the integration of RELEX supply chain software.
- **Executive Intelligence:** Designed dynamic Power BI dashboards for executive leadership, turning high-volume operational metrics into actionable business intelligence (BI).
- **Root-Cause Analytics:** Conducted automated audits on retail datasets to maximize inventory turnover and operational throughput.

FREELANCE DATA ANALYST | Remote, International

Data & Statistical Specialist | January 2021 – February 2022

- **ETL Pipeline Engineering:** Deployed end-to-end data cleaning, ETL processing, and statistical reporting solutions for international corporate clients using Python and SQL.
- **Systems Integrity:** Managed high-security legislative databases for record validation and ensured data integrity for state-level public tracking systems.

WISCONSIN STATE CAPITOL | Madison, USA

Database & Legislative Assistant | July 2018 – February 2019

- **Systems Integrity:** Managed high-security legislative databases for record validation and ensured data integrity for state-level public tracking systems.

EDUCATION

FAU ERLANGEN-NÜRNBERG | Erlangen, Germany

M.A. Development Economics | Expected September 2026

- **Thesis:** Socio-Economic Drivers in Child Labour Markets: A Theoretical and Empirical Policy Evaluation.
- **Specialization:** Advanced Econometrics, Statistical Analysis, and Behavioural Economics.

MARMARA UNIVERSITY | Istanbul, Turkey

M.Sc. Data Engineering | September 2019 – July 2021

- **Thesis:** Data Mining and Predictive Analysis of Deep Web Hacker Datasets.
- **Specialization:** Machine Learning and Big Data Infrastructure.

TECHNICAL SKILLS

- **Programming & Stats:** SQL, Python (Pandas, NumPy, Matplotlib), R, STATA, SPSS.
- **Infrastructure:** Power BI, Tableau, ETL Pipelines, RELEX Software, VBA/Power Query.
- **Competencies:** Supply Chain Analytics, Dashboard Architecture, Statistical Forecasting, Stakeholder Management, Data Governance.

LANGUAGES

- **English:** C2 (Native/Full Professional Proficiency)
- **German:** B1 (Working proficiency; actively pursuing B2 level)
- **Urdu:** Native | **Turkish:** A2/B1

Erlangen, Germany
